PROJECTS

Superhero Search | <https://github.com/tsgrewing/Superhero-Search> |
<https://tsgrewing.github.io/Superhero-Search/>

- I was the Team Lead for this project
- Stack: HTML, CSS, Bulma.io, JavaScript, chart.js
- Search for a Super Hero to find a short Bio, chart of their abilities, and an assortment of related gifs.
- Utilized HTML and CSS with Bulma.io to design and layout the page

Boom Roasted | <https://github.com/tsgrewing/boom-roasted/> |
<https://boom-roasted.herokuapp.com/> (user: demo@boomroasted.com pw: tester)

- Stack: React, CSS, mongoDB, Node.js, Express
- Built this app independently.
- Track coffee roasting process in real time, manage inventory, and connect with other coffee roasters.
- Other technologies used include: chart.js, React-Tooltip, npm, Passport, and React-Compound-Timer

MOST RECENT EXPERIENCE

Operations Manager 2018-2020

Virgin Islands Coffee Roasters Boynton Beach, FL

- Maintained Wordpress site: Updating styles and content with Wordpress CMS, Plugins, CSS and HTML.
- Maintained WooCommerce site: Maintained product selection, inventory, and information, managed promos.
- Created advanced reports and tracking systems for inventories, accounts, and quality control
- Solved problems quickly and creatively. Multitasked and optimized schedule to ensure the business operated smoothly.
- Managed day to day operations of coffee production, equipment maintenance, and wholesale operations.
